What's your least favorite aspect of the Georgia Tech bus system?

the unreliable predictions

how sometimes its not accurate with the expected arrival times

Buses sometimes run ahead of or behind normal schedule, which leads to, for example, no red buses for a long time and then 2 right after one another

Does not inform students when the bus is out of service or is full to capacity because it has a tendency to not allow students on

How busy they are when I need them most.

Waiting at the bus stop

That it exists

Sweaty people

Unpredictability/over crowded

What's your favorite aspect of the Georgia Tech bus system?

convenience

its a fast convenient way to get to class

Has stops at convenient locations

safe and if you lose items, they usually keep good track of them for you

Cleanliness, reliability (shows up generally when its supposed to)

I don't have one

That it exists

Fresh people

Conveint /sometimes. Air conditioned?
